Re: South Peak Subdivision

Dear Ms. Clark,

The Ulster County Department of Public Works has reviewed the engineering plan set, and the stormwater pollution prevention plan (SWPPP) for the proposed South Peak subdivision, last revised August 2nd 2009.
~~2009~~
2010

The SWPPP and its erosion and sediment control plan and engineering drawings appear to have been developed in accordance with the NYS Stormwater Management Design Manual and the NYS Standards and Specifications for Erosion and Sediment Control. As such, this department takes no exception to the plans as prepared and submitted.

Please keep in mind that an application for a highway work permit will be required and approved prior any work within the County right of way.

Should you have any further concerns or questions feel free to contact the undersigned.

Sincerely,

Brendan Masterson, CPESC, CPSWQ
Ulster County Dept. of Public Works
